SCARCITY OF FUEL .- It is not a little ingular that a city surrounded as this is by coal banks of the very best quality, should be without coal at a season of the year when it is needed ? A car load arrived a day or two since for Mr. S. Mc Connell, purchased for his own use; but so many applications were made for a load, or even half a load, that he generously loaned it all with the exception of a few bushels, refusing to take pay, although he might have obtained 25 or 30 cents for every bushel of it. We hope there may be better arrangements for the future .-When the new locomotives arrive, we Sugar, Molasses and a general assortment of spishall probably hear no more complaints ces; Also, Hardware Queensware and Glass of scarcity of coal .- Tribune and Clip. ware, all of which is offered as cheap as the

Company are building up their square with fine workshops, mostly brick. That looks like doing business on a large scale. The members of the firm are enterprising mea. We want a few more such within our limits. Customers are waiting to purchase almost every article that can be manufactured.

iams was stopping at the United States Hotel yesterday, who might justly be styled a "wild man." He eats nothing kept in a retail Dry Goods Store, his customers that is cooked, nor drinks anything but water. His meats, potatoes, and all his vegetables, turnips. &c. are all raw.— He alledges that he has never eaten any soon convince you that Money can be saved by cooked food for several ye rs. and that purchasing Goods of me entiany deviation from his present mode of living would most probably cause his death. He resides in lowa, and is on his way to Washington, to ake a purchase of United States land - Cin. (az.

MECHANICS, INVENTORS AND MANUFACTURERS. IN SPLENDID PRIZES. \$150.

Volume IX of the SCIENTIFIC AMERICAN commences on the 17th of September. It is chiefly devoted to the advancement of the interests of Mechanics, Inventors, Manufacturers, and Far mers, by the diffusion of useful knowledge up on these important branches. It is cuited by men practically skilled in the arts and sciences, and is widely regarded as a sound and able jourual. Nearly all the valuable Patents which issne weekly from the Patent Office are illustrated with Engravings, and the claims of all the Patents are pardished in its columns; thus making the paper a perfect Scientific and Mechanical Encyclopedia for future as well as present reference. The Scientific American is very extensively circulated-its circulation in the last Volume exceeding 18,000 capies per week. It is in form for blusing; each valume contains A bers Wm. Elden & Co., Wholesale Several Hundred Engravings and over four dex. The practical receipts alone are worth to Are now receiving their first importation of any family much more than the subscription
